Dr. J. T. Shotwell Says Progress Is Being Made on Atomic Control

Says Progress Is Being Made

DR. JAMES THOMSON SHOTWELL

In an exclusive Freeman interview Dr. Shotwell gave assurance the atomic energy problem is being solved. Such work is slow, he pointed out, is not exciting and never gets the headlines. There is, however, some hope of ultimate agreement, he said.

European Nations Are Asked To Reply to Marshall Plan

May Is Convicted By Federal Jury

Ex-Congressman Is Found Guilty of Selling His Influence

Washington, July 3 (AP)—Ex-Congressman Andrew J. May was convicted today of selling his influence while wartime chairman of the House Military Committee.

A Federal Court jury also convicted munitions makers Henry and Murray Garsson of paying the 72-year-old former Kentucky Congressman more than \$50,000 in bribes for favors during the war years.

The three defendants received the verdict calmly. All had relatives near them in the court room. The jury deliberated only an hour and 50 minutes before reaching its verdict, climax of a trial that lasted 11 weeks.

Announcement of the verdicts, however, was delayed more than 20 minutes while court officials were assembled.

Foreman George E. Wells solemnly answered "guilty" to each of the three counts in the indictment, which charged that May took money for interfering at the War Department for the \$70,000,000 Garsson munitions combine.

In response to a defense request, each of seven men and five women were sworn in and five

British, French Decide to Invite All but Spain to Report Their Needs

Paris, July 3 (AP)—The French Foreign Office announced today that 22 nations will be invited to a meeting in Paris July 12 to discuss European economic cooperation as outlined in the Marshall proposal.

Paris, July 3 (AP)—The French Foreign Ministry announced today that the British and French governments had decided to invite all European states, "with the provisional exception of Spain," to take part in drafting a reply to the Marshall suggestions for European economic recovery.

The communique called on the European countries to "draw up a European reconstruction program in which the resources and needs of each country will be coordinated, in a manner that each of the European countries will so decide freely."

The communique made no reference to Soviet Russia, nor to the failure yesterday of Russia, Britain and France to agree on the Marshall Aid-Europe proposal.

Use of the term "provisional" in excluding Spain appeared to indicate that the final decision on whether Spain would permanently be outside any economic agreement reached would rest with an international "temporary organization" which the communique said the British and French proposed to establish.

Foreign Ministers Confer
The British and French foreign ministers conferred at length this morning, emphasizing the break with Russia over the Marshall suggestion.

The text of the communique, issued after the meeting between British Foreign Secretary Ernest Bevin and French Foreign Minister Georges Bidault, as translated from the French:

Atomic Bomb Is Limited Weapon, He Says, and United World Is Peace Basis

Woodstock, July 3—Dr. James T. Shotwell, of this village, noted historian, author and chairman of the United Nations Commission to study the organization of peace, regards the atomic bomb, so terrible when used, a limited military weapon and feels that universal peace can only be assured ultimately through some form of world government.

Dr. Shotwell, professor emeritus of history at Columbia University, in an exclusive interview with a Freeman representative, added that progress is being made to solve the atomic energy problem.

Regarding creation of a world government Dr. Shotwell said, "We should study this instrument of pacific settlement of disputes by the slow building up of a world state ultimately leading to some form of world government. It can't be done now, because it would require the agreement of the rest of the world. It can't be forced upon an unwilling world, because that would be government through tyranny."

Fifth Report Given
The fifth report of Doctor Shotwell and his committee "Security and Disarmament Under the United Nations," has just been released in pamphlet form. This commission is the research affiliate of the American Association for the United Nations which was organized in November, 1939, under the chairmanship of James T. Shotwell.

The report deals with the problems of security and disarmament confronting the United Nations today. It is predicated on the belief that there are many phases of the security problem and efforts to meet them which must be united in one total effort.

Regarding the bomb, Dr. Shotwell said, "Progress is being made in the solution of the atomic problem by an analysis of the detailed situation and every phase of it. This is slow work and not very exciting and never gets the headlines, but there has been a shaping up of the issue in a way that does offer some hope of an ultimate agreement."

Informing by Russians
"This is a dangerous policy not only because of our relations with Russia, but because other nations in Europe, like France, are quickly informed by the Russians of our threats which come not from our government, but from individuals, who are promptly quoted. Then nations like the French believe the United Nations commissions are in the front line of another war."

Dr. Shotwell stressed the fact that, "In Europe they have no feeling that our possessing the bomb would save them from a Russian invasion. The military people believe that as things are now, if there were another European war at this time with the Soviet, the Russian tanks could be at the North Sea and Channel in 36 to 48 hours, and before any help could come from any quarter."

"The talk about war under these conditions is nothing short of criminal."

Says U.N. Can Succeed
It is Dr. Shotwell's sincere belief that the United Nations can work, if it has the "support of an informed and mature public opinion. There is too much of a tendency to side-step and by-pass the United Nations commissions and get things done quickly."

Of this procedure he said, "We generally have to do it all over again."

When asked his opinion regarding the Greek situation, he replied, "I don't object to our helping the Greeks, but I do object to our getting too deeply involved by ourselves alone. I think it should be with support of the United Nations."

What about the Russian veto? he was asked.

Hiya, Sunny! Bright 4th Is Ahead

Washington, July 3 (AP)—It will be a sunny Fourth of July for most of the nation.

The weather bureau said "day-time temperatures will be rather warm, mostly in the 80s but with low humidity and cool at night in New England and the Middle Atlantic States."

There will be slowly rising temperatures over New England and the Atlantic states, the bureau added.

44 1/2-Cent Raise On Basic Hour in New Coal Contract

Lewis on Way to Getting Best Wage Agreement; Some Owners Are Staggered

By HAROLD W. WARD

Washington, July 3 (AP)—John L. Lewis is well on the way today toward getting the best wage contract in the history of his United Mine Workers—who otherwise would extend their current vacation into a full-blown strike next Tuesday.

The day some operators feared the tentative settlement reached late yesterday by Lewis and top executives of "Big Steel" mine owners and northern commercial producers, the soft coal diggers will get a 44 1/2-cent boost in their basic hourly pay rate.

The "pattern" increase negotiated by rival C.I.O. unions in other basic industries earlier this year have been around 15 cents an hour.

The big question remaining, however, is how many mining companies will accept the agreement. It is no secret that a big segment of the industry was staggered by concessions the eastern producers made to Lewis. The Midwest, far west and southern mine owners, let out of the secret, top-level settlement negotiations—went to hurried huddles to make their strategy before the U.M.W. Policy Committee assemblies here Saturday.

Call It Inflationary
Some operators described the proposed contract as "highly inflationary," claiming it would boost not only the price of coal but of steel and dozens of other items essential to the national economy. But if the tentative settlement is signed and sealed by a major chunk of industry, other producers will have to capitulate or face an extended shutdown.

The government last Monday turned back to private ownership the mines it seized 13 months ago, thus forcing the operators and unions to come to terms themselves for operating the pits after the 10-day vacation period runs out July 8.

Conceded a Victory
While all sides were carefully guarding the exact provisions of the proposed compact, it was widely conceded that Lewis had won a sweeping victory from President Truman's Fairness of U. S. Steel Corporation and George M. Humphrey, of the Pits.

Steelworkers Vote to Ignore Taft-Hartley Labor Act

Pittsburgh, July 3 (AP)—The United Steelworkers Union, largest in the C.I.O. has voted, in effect, to ignore the new Taft-Hartley labor act passed by Congress over President Truman's veto.

In triple-vote action, the union's 42-man executive board yesterday agreed:

1. Not to recognize the new labor board to be set up under the law, but to "seek to resolve all issues between our union and the employers through bona fide collective bargaining and other peaceful means wherever possible."

2. That the union will not commit itself to no-strike obligations enforceable by harassing law suits.

Two Pedestrians Are Injured in Rifton Accident

Man and Woman Taken to Hospital; Hit by Car Driven by Local Man

Two persons were injured when, according to the authorities, they were struck while walking along the road near Black Swan Inn, Rifton, by an auto driven by Bernard Schermerhorn, 22, of 197 Henry street last night.

The injured are: Micheline Ramos, 36, of 64-23 18th avenue, Brooklyn, who suffered a back injury and Phil Siggia, 21, of 2367 28th street, Astoria, L. I., who suffered a severe laceration of leg muscles.

Schermerhorn, an iron worker on the Neversink waterworks project, according to Sheriff George C. Smith, said that the accident happened as he was riding toward Kingston with Harold A. Bailey of Rifton.

The two, the sheriff reported, were "just beyond the inn and crossing a slight curve when, according to Schermerhorn, a car traveling in the opposite direction, passed them."

Schermerhorn reported that at the same time he saw two persons walking along the road to his right. The woman, he said, was wearing a macadam and the man was just off the pavement. Both, he said, were headed toward Kingston with their backs toward the traffic.

The driver, the sheriff reported, said he was going at about 40 miles an hour and that he saw the car of the woman and the man as he did so, he reported, its rear struck the woman, knocking her to the ground, and it later struck the man and some highway posts.

Tried to Give Aid

Schermerhorn said he stopped his car and went back to where the people were lying on the ground and attempted to give aid. A car of Mrs. Graham Davis was stopped and Mrs. Ramos was placed in the car preparatory to being brought to the Kingston Hospital but meanwhile the Conner Ambulance Service was notified and both Mrs. Ramos and Siggia were brought to the hospital by ambulance.

At the hospital Dr. Joseph Jacobson attended the injured. The right rear door and glass of the Chevrolet car was damaged and the left rear fender dented.

Siggia was staying with relatives at a bungalow near Black Swan Inn and Mrs. Ramos was stopping at the Rifton Hotel.

Sheriff George Smith was summoned and with Deputies Arthur Brown, Delbert Sapp and Harry Kantor went to the scene where an investigation was made. Photographs were taken of the scene.

Program for 1947-48 Is One Rejected by Common Council July 1; Calls for Raising of \$542,957 for Year

The Board of Education at a special meeting held at noon today by the unanimous vote of all members present voted to sustain its budget for the 1947-48 school year which calls for the raising of \$542,957.85 by direct taxation. The total budget, including estimated public money and moneys received from all other sources, for operation of the Kingston school system for the ensuing year is \$1,081,522.54.

Record Travel Is Indicated in Area For Big Holiday

Heavy Traffic Begins Early and Is Noted on Roads, Busses, Trains and Day Line

Reports on the exodus of vacationists and holiday travelers from the metropolitan area and estimates of local authorities and transportation lines point to a record influx of visitors to the region between today and Sunday, all sources indicated this morning.

Area police have arranged for the handling of an expected heavy flow of traffic through the city and over all area routes, and extra sections will be added to scheduled runs of various transportation lines.

Traffic through the city was noticeably on the gain by noon today and is expected to reach a marked increase by tonight and throughout tomorrow.

Local bus stations reported that extra busses would be added on several runs today and one reported that 17 busses would be used on two regularly scheduled runs this afternoon from New York.

The West Shore Railroad announced that it had scheduled advance sections and extra coaches on several trains beginning on the one scheduled to arrive at 12:10 p. m., Daylight Saving Time.

Another advance section was scheduled for the "husband" train due at 8:35 p. m. today. This is usually a Friday night train which includes special coaches for the Catskill Mountain Division of the West Shore and a unit which runs as far as Catskill.

The train due at 2 p. m. today was also expected to have extra coaches and an advance section was scheduled for the train due to arrive at 10:45 a. m.

The Hudson River Day Line reported that it expected large crowds on north-bound runs due to the exodus from the city of many summer camp groups and vacationists.

Chief of Police Ernest A. Boss today announced arrangements for the handling of traffic for large crowds and authorities have issued warnings for precaution among crowds at the various swimming places.

Many dances and other social events in various communities are on schedule for tonight and for each day and evening of the holiday week-end, and most of these are expected to draw capacity crowds.

Binghamton Contractor Is Given Contract for Construction

Work on the construction of 9.82 miles of Route 28 from West Hurley to Cold Brook might be started this summer, it was learned today from D. V. Z. Bogert, state highway engineer for Ulster county, following an announcement that the contract for the project has been let.

The road will be continued as a four-lane concrete highway as far as the intersection of the Woodstock road and will be two lanes in width from there to Cold Brook, the engineer said. It will cost more than a million and a half dollars.

Bids on a project for the construction of 10.94 miles of road on Route 52 from Ellenville to Woodbourne, will be among those received on other state projects in the State Office Building, in Albany July 16, the State Department of Public Works announced. The state engineer estimates its cost at \$1,013,000.

Committee Plans Showdown Vote

Delay Is Agreed Upon After Request by Democrats for Study Time

Washington, July 3 (AP)—The House Ways and Means Committee agreed today to postpone until the afternoon its showdown vote on the new \$4,000,000,000 tax slashing measure for 48 million taxpayers.

The Republican majority consented to the delay on a request by Democrats for a little time to study the legislation.

The bill differs from the measure vetoed by President Truman June 16 only in a change of the effective date from July 1 to next January 1.

Chairman Knutson (R-Minn.) told reporters: "We will approve the measure this afternoon."

Speaker Martin (R-Mass.) has forecast passage of the bill by the House next Tuesday. A House vote has been set for that date.

Rep. Doughton (D-N.C.), ranking Democrat on the committee, requested the delay after the committee had considered the new measure for an hour behind closed doors.

Knutson commented that the decision by Republican leaders to go ahead with the new tax bill "apparently took many members by surprise."

Some Democrats predicted that Mr. Truman again would veto the tax legislation and doubts arose that the Senate would override a second presidential objection.

Knutson said Doughton told the committee he would like to write into the bill a provision applying the community property principle of the computation to all states.

Knutson commented that "time would not permit us to study the proposition with the care it should have."

Population Gains

State Has 298 Per Cent Rise for Those Over 65 Years of Age

Albany, N. Y., July 3 (AP)—A 71 per cent increase in New York state's population in the last 40 years was accompanied by a 298 per cent rise in the number of people over 65 years of age, a joint legislative committee says.

Senator Thomas C. Desmond, Newburgh Republican, said yesterday in a report for the committee studying problems of the aging that by 1960 the state will have three times as many residents over 65 as it had in 1930.

In 1930 there were 667,328 residents over 65 years of age and, Desmond predicts, there will be 2,000,000 by 1960. The number as of July 1, this year, was estimated at 1,200,000.

Foreman's Union No Longer Favored By Ford Motor Co.

Detroit, July 3 (AP)—The Ford Motor Co. today withdrew its recognition of the Foreman's Association of America, an independent union, as bargaining agent for 3,000 striking supervisory employees.

In a letter to Robert H. Keys, F.A.A. President, John S. Bugas, vice president and director of Ford Public Relations, said:

"Our experience with the Foreman's Association of America has forced us to the conclusion that management and labor in this company are unopposed in principle and unworkable in practice."

Under terms of the Taft-Hartley Labor Law, Ford would not be required to recognize the Foreman's Union after August 22, when the new Act becomes effective.

Although the company has had no contact with the foremen since May 9, it reportedly expressed willingness in the past to deal with those foremen who were loyal to the union.

The strike began May 21 after Ford declined an F.A.A. request that it represent all supervisory employees in Ford's plants.

Carnival Crowds Are Expected by Volunteer Firemen

The Ulster County Volunteer Firemen are staging a carnival at Sorbello Field on Route 9-W, south of Port Ewen Village, which is expected to attract record crowds over the Fourth of July holiday. The carnival will be held tonight and again on Friday and Saturday evenings beginning at 7 o'clock.

One of the highlights of the entertainment program is the Firemen's Show, which will be presented each evening by the St. Remy Fire Company.

Refreshments will be served and there will be no admission charge. Proceeds from the carnival will be used by the volunteer firemen to defray the expense of the big fireman's convention in Port Ewen.

The carnival opened Wednesday evening with a large, and well-attended gathering.

The firemen worked hard to make this carnival a gala event for the people of the county and district. The carnival grounds have all the booths erected along the highway and are prepared to take care of large gatherings each evening.

assemble the data on which such a program will be based.

The French and British governments have, in consequence, decided to intensify the international division of European states with the provisional exception of Spain, which wish to participate in drawing up a reply to the suggestions of Mr. Marshall to collaborate with them (France and Britain) to establish this organization. The task to be undertaken will be to draw up a program of European reconstruction in which the resources and the needs of each country will be coordinated in the manner that each of the European countries will so decide freely.

This offer of participation in the organization will remain open to all European states.

The World Today

By DEWITT MacKENZIE (A. P. Foreign Affairs Analyst)

Russia's rejection to the Marshall program for European economic rehabilitation is good news for western democracies.

It is good because it removes a terrible handicap of uncertainty which has been impeding world peace and recovery.

Now please don't misunderstand. The ideal for which all people of good-will have labored would be unity of purpose among the nations, and especially among the major powers upon whom rests main responsibility for global welfare. There could be no greater boon to humanity than that.

However, with each passing day since the end of the war it has become increasingly clear that the way of totalitarian Communism was not that of western democracy. Moreover western suspicions that the Soviet Union was bent on communicating the world have grown as Moscow has brought nation after nation in Europe and Asia within its zone of domination by coups which have evoked vigorous protests from Washington and London.

For a considerable time it has been obvious to informed observers that there must be a tabling of cards among the major powers. Secretary of State Marshall's economic proposal has forced the showdown.

The western Allies tabled their cards when that altruistic proposal was made, and was agreed to by Britain and France. Then the Anglo-French pair extended an invitation to Russia to join. Thus leaving Moscow the choice of three courses to pursue.

To accept, go all-out in an effort to make the program work, thereby encouraging belief that after all Communism and other isms could collaborate.

2. To join with tongue in cheek and then try to scuttling the ship.

3. To reject cooperation, thereby evoking the breach between east and west.

The Soviet Union has chosen the third course. Foreign Minister

SHOKAN

Shokan, July 3—Mrs. John Gikas and children have arrived at their village place for the summer months.

Paul James was discharged from the Kingston Hospital Tuesday and is again at his home in Shokan.

Persistent rumors that Route 28 improvements may get underway this year were given support by the appearance here Monday of men to look over the road.

Bill Rhodes of Albany who has a boat on the Ashokan was numbered among the cut-of-tow fishermen here Tuesday. Mr. Rhodes had no luck with black bass on opening day.

Mr. and Mrs. Thomas Carpenter of Long Island were Saturday night guests of Mr. and Mrs. James Carpenter who were at their bungalow for the week-end. The couple has a summer place at Pompton Lakes, N. J.

burgh Consolidation Coal Company.

Some economists in the industry said the settlement would in effect raise the basic production rate of the inside day miner from \$1.18 1/2 to \$1.63 an hour—a boost of 44 1/2 cents.

The miner would get \$13.05 a day for eight hours underground, instead of the \$11.85 he now receives for nine hours. The one hour allowance for underground travel would be retained, but he also would be paid for a 30-minute lunch period. Thus his total production would be only six and one-half hours, in place of his present eight hours.

Lewis also had asked for a ten-cent a ton welfare fund royalty instead of the five cents, but unconfirmed reports were that Lewis had agreed to continue the nickel collection.

Steel Demand Helps

Those left out of the secret meetings said the current record demand for steel, plus the fact that the U. S. Steel Corporation of Pittsburgh Consolidation Company—a highly mechanized concern—worked to Lewis' advantage in his dealings with Fairless and Humphrey.

Thus the U.M.W. chief made a powerful comeback from his complete failure last winter to better his contract with the government. Lewis, both former American miners' ever, won. That effort broke down when the government slapped an injunction on the mines and later obtained a contempt of court conviction that cost Lewis and the union a total of \$710,000 in fines.

Roskoosy Bail Fixed At \$1,500 for Hearing

Bail for Augustus Roskoosy, 35, of Miami Beach, Fla., was fixed at \$1,500 cash or \$3,000 property security by Justice Percy Bush of the Town of Ulster, pending a hearing in his court on July 16, at 7:30, on a charge of criminal negligence in the operation of an automobile.

Roskoosy's car was involved in the collision near Glenview June 26 which resulted in the death of Mrs. Agatha Blonczell of Catskill, who was riding in the auto of John Mark of Saratoga Springs. Roskoosy remained in jail awaiting arraignment for bail, after his arrest by State Police as he left the Kingston Hospital.

May Be in Middle

Washington, July 3 (AP)—Four nations—Poland, France, Italy and Czechoslovakia—appear destined today to get caught in the middle of the expected conflict between Russia and the western powers over the economic organization of Europe under the Marshall plan.

The breakdown of the Paris conference yesterday and Soviet Foreign Minister Molotov's assertion that the Marshall proposal means the division of Europe left little doubt among diplomatic authorities here that such a conflict would develop.

They said it would have repercussions in every part of the continent but that the squeeze almost certainly would be most intense in four countries for these reasons:

POLAND—The Polish government already has notified the State Department of its adherence to the Marshall plan. Yet Poland is in the Soviet's sphere of influence, and Russian troops operate there in support of their occupation forces in Germany. Poland is in great need of American help and is especially eager to get direct relief at once.

FRANCE—France is the home of a powerful Communist party, and if the party follows the Moscow line and opposes the Marshall plan as expected the French government probably will find itself self faced with an extremely difficult internal political situation.

CZECHOSLOVAKIA—The Czechs have expressed deep interest in the Marshall plan, and indications are they would prefer to cooperate. But like the Poles they are in the Soviet sphere, and Russian troops operate there in support of their occupation forces in Germany. Poland is in great need of American help and is especially eager to get direct relief at once.

ITALY—The Italian government like the French was reorganized last spring without Communist participation. But the Communist party is strong and in a position to bring powerful opposition against any government policy it disapproves. If Moscow so orders, it might try to make Italian participation in organized European recovery relatively ineffective.

Get Summer Camps

Frankfort, Ky.—Twenty-two thousand teen-aged youngsters from displaced persons camps in the American zone of Germany are getting two weeks vacations at summer recreational camps, U. S. Army headquarters announced.

The project provides camping opportunities, recreational facilities and a beneficial change under complete guidance and counsel for children between the ages of 10 and 18 years, the announcement said. "Each child receives a supplemental ration of 350 calories, bringing the daily individual diet to 3,000 calories." The program is sponsored by the world YMCA YWCA with the cooperation of the U. S. Army and several welfare organizations affiliated with UNRRA.

women jurors was polled on his decision.

Each juror replied "guilty" to each of the three counts against each of the three defendants.

The court deferred sentence until later to give the defense an opportunity for appeal motions.

The maximum penalty would be a sentence of six years in prison and \$30,000 fine.

Charles J. Margiotti, head of the defense counsel, said he would appeal within five days.

At that time, he told the court, he will file a motion for judgment of acquittal, irrespective of the jury's decision, a motion for arrested judgment, and a motion for a new trial.

Trade Directive Expected

London, July 3 (AP)—A government spokesman said today the cabinet was expected to issue a directive soon dealing with British plans to expand trade with eastern Europe, despite failure of the Paris conference on the American aid plan. He did not attempt to conceal the fact that the British plan was to encourage the Marshall proposal for European reconstruction had been a foregone conclusion to the labor government.

To Fix Dutchess Road

Albany, N. Y., July 3 (AP)—A \$114,377 contract for improving 4.88 miles of Route 378, Dutchess county, was awarded today to Daniel F. McNamara & Co., Inc., of New Rochelle, by the State Department of Public Works. Charles H. Sells, superintendent of public works, said the road from Red Oak Mill School to Sprout creek will be widened to 22 feet and resurfaced with asphalt concrete.

Relief Ship on Hudson

Albany, N. Y., July 3 (AP)—The 12,000-ton Dutch ship Westerdam, the largest ever to sail up the Hudson river to Albany, will load supplies for the relief of war-devastated Nijmegen. The supplies for the people of Nijmegen, Albany's "adopted" city were collected here during a two-week drive. The Westerdam will carry grain, clothing, canned food, building supplies and medicines back to Nijmegen.

At least 12 states are using license plates made of aluminum.

Hurley Grange Meetings

The Hurley Grange will hold one meeting each during July and August. The group will meet Thursday, July 17 and Thursday, August 21.

Still Fighting River

Grand Tower, Ill., June 3 (AP)—The fight between man and river continued unabated south of St. Louis today in an effort to save remaining levees while army engineers and flood control authorities fought flood damage along the raging Mississippi and its overflowing tributaries in Missouri, Iowa and Illinois to be at least \$500,000,000. R. H. Musser, regional conservator for the U. S. Soil Conservation Service, said a survey showed enough soil had been washed downriver to cover 225,000 acres six inches deep. At St. Louis the river fluctuated between the 103-year high of 40.3 and one tenth of a foot less. Harry F. Wahlgren, U. S. meteorologist, said a gradual decline was expected in the next 48 hours.

Largest of Seven

The project is the largest of the seven on which bids were received, the state report showed. The state engineer's estimate on it was \$1,705,000.

Several bids were also reported received by the department on the state project for furnishing and erecting woven wire fence and three gates at the State Department of Public Works storehouse in Kingston. The lowest, \$6,998, was submitted by the American Steel & Wire Company of Albany.

The department reported that "no proposals were received" on projects in seven other counties, which were advertised for letting.

Two Lawyers Acquitted

Tokyo, July 3 (AP)—A court martial today acquitted two civilian lawyers, both former American Army officers, on charges they unlawfully received fees from soldiers they had agreed to defend in an earlier case. The verdict was announced by Judge Advocate Col. F. P. Shaw. The defendants, Ben F. Unkelles and Paul Roberts, both of New York city, were charged with receiving approximately \$1,500 and with agreeing to receive approximately \$2,000 more for legal services for soldiers convicted in a black market case.

Police Investigate Angle Terriers May Have Killed Man

New York, July 3 (AP)—Police investigated the possibility today that a pack of bull terriers which killed an 11-year-old boy Tuesday also might have caused the death of a 78-year-old man last April 3.

All the facts in both deaths will be presented to a Bronx grand jury next Tuesday, Assistant Bronx District Attorney Marvin Lechtman said.

The five dogs attacked 11-year-old Stanley Balaban Tuesday. When a policeman tried to aid the boy, the dogs turned on him and he had to be rescued by other policemen.

The dogs were owned by Svend F. Sandgren, who said he bred them for show purposes. They were kept in a shack.

Lechtman said Thomas Lynch, 78, a retired dog breeder, was staying with Sandgren at the time his body was found in a creek in the vicinity of the shack.

Dr. I. Michelstein, Bronx medical examiner, reported an autopsy on Lynch's body showed death had been caused by submersion but that parts of his body had been gnawed away by "undetermined circumstances."

**Argentinian Says He
Will Forget Jewels**

Los Angeles, July 3 (AP)—Having lost her love, Martin de Alzaga Unzué, wealthy Argentine sportsman, has decided to forget about the \$35,000 worth of jewels he gave Actress Kay Williams, now that she has broken her promise to remarry him.

He has dropped a suit he brought against her for recovery of the jewels which he claimed he gave her after she said she would remarry him.

Instead Miss Williams, who admitted receiving the presents, shortly thereafter became the fifth wife of Adolph Spreckels, Jr., sugar heir.

Dogs Need Special Summer Grooming

Dogs may be almost human in many respects—but that does not apply to their bathing requirements. Experts say that two or three baths a year are quite sufficient for a normal healthy dog.

Don't, out of mistaken kindness, bathe your dog often just because it's summertime. Frequent bathing removes the skin's natural oil, leaving it dry and cracked. Soon the dog starts scratching the irritated area, and before you know it you have trouble on your hands.

So-called doggy odor is no excuse to increase the number of baths. Poor grooming may be at fault. A dog has no sweat glands, but perspires through his tongue and the pads of his feet. Take special pains with your dog's diet; see that he has exercise and a clean place to sleep—and there'll be no doggy odor to annoy you.

Our Reader Service booklet No. 78 tells you how to raise a healthy, alert dog. Covers diet, grooming, illness, plus 20 illustrated lessons on teaching tricks.

Send 25 cents (coin) for "How to Raise and Train Your Dog" to The Kingston Daily Freeman, Reader Service, 243 West 17th street, New York 11, N. Y. Print name, address with zone number, booklet title and No. 78.

British on Balkan Issue

Lake Success, July 3 (AP)—Britain was reported ready today to support the United States demand for firm United Nations action to stop the Balkan troubles. The British feel, a reliable source said, that if the United Nations cannot take preventive action in this troublesome case it will be a sad day for the U.N. Sir Alexander Cadogan, British delegate to the United Nations, was said to be prepared to tell the U.N. Security Council that his government would go along with the conclusions reached by the U.N. Balkan Investigation Commission and with a United States resolution calling for U.N. action.

Predict Other Tax Veto

Washington, July 3 (AP)—Democrats predicted today that a presidential veto awaits the carbon-copy tax reduction bill which Republicans have scheduled for quick congressional passage. Doubt arose, meanwhile, that the Senate would override a second presidential objection. Senator Hatch (D-N.M.) told a reporter that he does not see how Mr. Truman could accept a measure identical—save for the effective date—to a bill he said last month provided the "wrong kind of tax reduction at the wrong time." Hatch, whose words were echoed privately by several other party members, said he does not, however, know the President's intentions.

**Posthumously Born
Child Has Good Chance**

Clarksville, Ark., July 3 (AP)—A six-pound seven-ounce girl born by Caesarean section after the death of her mother has "an even chance to live," physicians said today.

The infant's mother, Mrs. Adolph Krejpek, 31-year-old wife of a farmer, died in her husband's truck yesterday en route to a hospital. Dr. James M. Kolb estimated the baby, which had been expected July 4, was born about five or six minutes after the mother's death.

It was believed the mother died of a heart attack. Artificial respiration and oxygen were used for a half-hour on the youngster before a faint wail told that the birth had been successful.

**Auto Deaths Drop
More Than 20 Per Cent**

Albany, N. Y., July 3 (AP)—Automobile deaths in New York dropped more than 20 per cent during the first four months of the year compared with 1946, but non-fatal accidents increased.

The Bureau of Motor Vehicles said non-fatal mishaps rose from 30,085 for the first four months last year to 33,351 in the same period this year.

Traffic deaths dropped from 651 to 516, despite a 10 per cent increase in gasoline consumption.

The Russians are using underground gasification of coal on a commercial scale.

House Committee Turns Critical of Aid Program

Washington, July 3 (AP)—The House Appropriations Committee turned a critical eye today toward President Truman's foreign-aid money requests, including funds for the \$400,000,000 stern-Communism program already underway in Greece and Turkey.

Members indicated that the committee, in its present frame of mind, might slice in half the \$1,500,000,000 total now being considered by the committee. The tip-off to committee sentiment came from Chairman Taber (R-N.Y.) himself, who told reporters "there has been no justification at all for an appropriation to finance the \$400,000,000 loan to Greece and Turkey."

At most, Taber declared, only

\$100,000 of the proposed total has been justified by State Department witnesses.

Nor is the committee satisfied, Taber said, with testimony it was heard in support of the \$350,000,000 program for relief in liberated nations.

The income from potatoes in 1946 to growers in Aristock County, Maine, was about \$61,000,000.

Nominees for Rent Boards
Will Be Tip-Off on Policy

By HARRY O'DONNELL

Albany, N. Y., July 3 (AP)—Governor Dewey has remained silent on the modified federal rent control law but his choice of nominees for the new local advisory rent boards will be watched as a possible tip-off on future state policy.

The state's standby residential rent control law cannot become operative until federal regulations expire next March 1. Meanwhile, the local advisory boards will appoint the boards, but the new law specifies they be selected from among citizens recommended by governors of the states in which the rent control areas are located.

The law states that any rent recommendations of the local boards "shall be approved" by the federal area director and placed in prompt effect if "appropriately substantiated" and in accordance with applicable law.

Under the provision of the new federal law, the state could almost control rent ceilings, some observers believe. If the local boards were carefully handicapped, "Others consider this possibility remote. They concede, however, that the background of the governor's recommended nominees and their actual performance could be indicative of what tenants and landlords might expect from the state after federal control expires.

Predictions Extension

As it now stands, the state law is due to expire July 1, 1948. It could continue controls only four months after the scheduled expiration of the federal regulation, March 1.

Republican Assemblyman D.

Malloy Stephens of Brewster, author of the state rent statute, has predicted probable extension beyond mid-1948. He would not comment on just how rigid it would maintain controls except to observe that "we will not let them run away with this thing." He said the state law was fair to both tenants and landlords.

There is no "rollback" provision in the state law. Upon expiration of federal controls, the state rent commissioner would automatically proclaim rent control in those areas under federal control at the time of its lapse. The commissioner also would have power to declare other control areas, adjust rents and lift and re-establish controls if he felt conditions warranted.

In the "inherited" federal control areas, the commissioner would be enjoined to fix regulations conforming to those "in force and effect at such time pursuant to federal law." (Practically every New York urban area now has federal rent controls.)

Content Tenants Must Agree

Meanwhile, the standby state law could not preclude rent increases granted under the federal law—either, individual hardship cases or the 15 per cent increase permitted by voluntary agreement between the tenant and landlord on the basis of a lease through 1948.

Because the new federal law eases eviction procedure, considering opponents of the measure contend tenants will be forced to agree to the 15 per cent in order to obtain a 1948 lease—as protection against further increase when federal and state controls are

scheduled to expire during the year.

Once the 15 per cent was agreed to and a lease legally executed, the state law, when it became operative, presumably could not affect such an agreement.

The new federal law stipulates that rent for a premises involved in such an arrangement would not be subject to modification by any subsequent federal rent order during tenure of the present Act. It provides that such a premise would not be subject to a maximum rent after December 31, 1947—except that fixed in the lease.

Those seeking extension of the state law desire tenant protection at the end of 1948 when most of the leases presumably would expire and tenants would be exposed to unlimited increases.

Dewey Could Avoid It

Dewey, who has kept silent on major federal legislation affecting taxes and labor, presumably could stay out of the rent situation by failing to recommend local advisory rent board members, leaving the decision strictly with the federal supervisor.

However, the governor has frequently indicated great personal pride in the New York Rent Law. When O.P.A. rent controls lapsed for 25 days last July, New York was the only state ready with its own law. Dewey made much political capital of the fact in his reelection campaign. He conceivably could profit again in 1948 in his third bid still undeclared bid for the Presidency.

Needs Moon

The city of Liverpool, England, would be almost useless as a port without the moon, since it must have tides to keep its harbor channel clean.

In 1946 there were 3,440,000 babies delivered in the United States.

A NEW TWIST IN RAILS

A rail twisted 'horseshoe' shape and half-overturned cars mark the wreck of the Baltimore and Ohio's 'Columbian' near Alida, Ind. At least 70 persons were injured. Those unhurt are being transferred (background) to another train to continue their Chicago-Washington trip. (NEA Telephoto)

Spanish Peanuts

The Spanish peanut has a small pod and a kernel covered with brownish skin. The plant grows upright, its pods lying underground close together. Spanish peanuts are suitable for crushing, salting, and for making peanut butter and candy.

The chief non-table uses of potatoes are exports, starch and alcohol manufacture, and cattle feed.

Flashes of Life Sketched in Brief

All-Seeing Driver

Oklahoma City, July 3 (AP)—A driver charged with failing to yield the right of way told Acting Police Judge Granville Scanland the other motorist "must have dropped from heaven."

"I never did see him until after the accident and I looked both directions," he testified. "You should also look up in the air," Judge Scanland observed as he assessed a \$6 fine.

Safety Note

Kansas City, July 3 (AP)—The white cars driven by traffic and safety department police will have extra passengers tomorrow.

Interns from the general hospital will ride in each car to take care of any Fourth of July casualties.

Church of Vegetables

Chicago, July 3 (AP)—The garden which Emil Soldan is growing in South Western avenue is described by neighbors as pretty as a picture.

Soldan, 63 and partly blind, used vegetables instead of paints to make the picturesque garden. With cucumbers, beets, cabbages and other vegetables as his materials, Soldan has created the design of a church in his 40 by 60 foot garden.

In the center of the church is a huge star of lettuce with a center of cucumbers. A circle of cabbages and beets surrounds the star.

Extraction

Chicago, July 3 (AP)—Mrs. Mary Kelly, 25, filed suit in circuit court for \$5,000 damages from a dentist she said had pulled a tooth she did not want extracted.

Mrs. Kelly's suit said after she discovered a tooth that was not

aching had been pulled, the dentist extracted the ailing molar. She said the dentist charged her \$7 for pulling the aching tooth and "then said he would give me a bargain and only charge me \$5 for pulling the one I didn't want pulled."

Floor 'Margins'

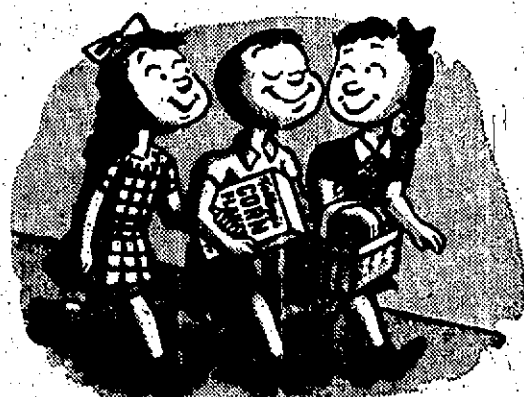

In a large room about a foot of floor should show around the rug. If the room is small, the margin should be about six or eight inches.

How to Cook Kale
When preparing kale, be sure to remove the small rootends and the tough mid-ribs. Wash the green leaves thoroughly and then cook them in just enough boiling water to barely cover. Do not cook kale any longer than just enough to make it tender. Add a piece of pork or bacon to give it flavor if you wish, or serve the vegetable with butter, cream or tomato sauce.

Dr. Shotwell

Continued from Page One

situation. The United Nations has a temporary investigating committee in Greece, and Russia has not objected to that. Moreover, it was the United Nations' action in Iran which made Russia come to the aid of the United States.

Control of atomic energy is uppermost in the minds of all peoples today, about which Dr. Shotwell had this to say: "The control of atomic energy is a problem which involves control of a great many other things. If it is to control peacetime uses of atomic power, the Atomic Energy Commission of the United Nations would be the most powerful group in the world. The American delegates think they have the only way it can be handled safely; the Russians believe they have the only way. There is no reason for us to doubt that the Russians are sincere about this. When you have a problem with two very convinced disputants, you can't expect that the answer will be reached without some compromise, or at least without its taking time for adjustment."

Have Come Long Way
"The Russians," he said, "have come a long way recently in accepting international inspection, provided the inspection is not of a kind to interfere with their particular form of economy." At this point he read a paragraph from his commission's report. "The plan for the control of atomic energy should not pose obstacles to full use of the peacetime enjoyment of atomic energy, rather it should facilitate such use; nor should it interfere with

the economic systems of each country." Time and again during the interview, Dr. Shotwell stressed the importance of giving the public understandable information on this gravest of subjects. Too often, he said, that which is given is so highly technical in nature that it defeats its own purpose. The public is clamoring for enlightenment. "I have seen so many evidences of this, on the occasions I have had to speak before various groups," he said.

A proposal, considered to be of the utmost importance by the Commission, is that the Assembly should be like Congress. In other words, that it should be a continuing and lasting body with full apparatus for recommendations and action that would tend to counter or support the Security Council, thereby having one method of securing action that would not be vetoed at every turn.

An Unworthy Betrayal

Before concluding the interview, Dr. Shotwell once more referred to the Commission's fifth report and read therefrom the following: "There must be a reaffirmation of faith. The present discouragement, economic isolationism and distrust among the great powers is a betrayal of the men and women who died in the war. It is unworthy of the United Nations. Indeed, there is evidence that even if the Governments may be far apart, the world for peace and stability is never before. From that standpoint, the deadlock is not as great as it appears. The power of this popular will for peace is the power which can and must break the deadlock."

Prominent in World Affairs

During the 35 years of his residence in Woodstock, Dr. Shotwell has been prominent in world affairs. He has been one of the few men living today who were at the Paris Peace Conference with President Wilson. He worked with Cordell Hull and Sumner Welles during the planning for the U. N. charter, and at Dumbarton Oaks. In the interim, he has been chief of Division of History of American Commission to Negotiate Peace and a member of the International Labor Legislative Commission at the Peace Conference of the First World War; American member of the organizing committee International Labor conference, 1919; Executive and Director division of economic and history, Carnegie Endowment for International Peace, since 1924; director division International Relations, Social Science Research Council, 1931-33, chairman, National Committee of U. S. A. on International Intellectual Cooperation of League of Nations since 1932; President, League of Nations Association, 1935-36; Chairman, Commission to Study the Organization of Peace 1939-40; member Advisory Committee, Department Cultural Relations, Department of State since 1940.

Hundreds of volumes of his works have been published since 1919, including 150 volumes of Economic and Social History of the World War, 1919-1929; in 1936 35 volumes of Canadian American Relations. His more recent works are The Great Decision written while in the State Department before the San Francisco Conference, during which time a special edition of this publication was brought out; On the Rim of the Abyss, written in 1935 when Hitler was just beginning to show himself, in which he pointed out that we were on the edge of an abyss, the only escape from which would be an international organization in a strategy of peace instead of a strategy of war. What Germany Forgot was published in 1940. He is now working on his new book, The Bridges to the Future, which should be ready for publication in October and concerns the gulf that lies between us and the future possibility in the international field.

Relaxation in Writing

Though one might suspect Dr. Shotwell would take advantage of his beautiful surroundings at Cluarn where he resides during the summer and fall months with his wife and daughter, Helen, such is not the case, for as Helen so well expressed it, "Father's idea of relaxation is writing a book, which he has every year." Mrs. Llewellyn Sumners, another daughter, makes her home in Poughkeepsie and is a frequent visitor at Cluarn.

The opportunity to interview Dr. Shotwell is always a privilege, for although he is one of the outstanding men of these times, he is a modest, kindly, charming and understanding person.

Dr. Shotwell will be the guest

speaker Sunday evening at 8:15 o'clock at the Discussion Group meeting at the Woodstock Art Gallery. Questions will be answered following his talk on Security Through the United Nations. The discussion group invites all interested persons to come to the meeting.

Linebaugh-Gale Wedding Takes Place In Phoenicia Church

The wedding of Miss Marilyn Gale, daughter of Mrs. L. C. Gale, Phoenicia, to Carl Linebaugh, son of Mrs. Ida Linebaugh of Ionia, Mich., took place Saturday at 2 p. m. in the Phoenicia Methodist Church. The Rev. William R. Peckham, pastor of Clinton Avenue Methodist Church, this city, performed the ceremony assisted by the Rev. Martin Yost, pastor of the Phoenicia church.

Mrs. Garrett Bennett was organist. Miss Jacqueline Loomis sang "O Promise Me" and Robert Brethaupt sang "The Lord's Prayer." Bridesmaids and bouquets of yellow gladioli and pink carnations were used in the decorations.

The bride was given in marriage by her brother, Lonnie Gale. She wore a white eyelet pique gown made with high round long pointed sleeves and train. Her fingertip veil was caught with a headpiece of white flowers and she carried a prayer book with gardenias and ribbon markers tied with sweet peas.

Miss Dulcie Gale was her sister's maid of honor. She wore a light blue eyelet gown with picture hat of the same material. She carried pink roses and yellow daisies.

Kenneth Baserman of Johnstown, Pa., was best man. Ushers were Edwin Gale, brother of the bride, and Richard Knight, both of Phoenicia.

A reception for 60 guests was held at the home of Ellsworth Wells in Phoenicia.

Upon their return from a wedding trip Mr. and Mrs. Linebaugh will reside in Mineola, L. I. For traveling the bride chose a light blue crepe dress, brown accessories and a corsage of gardenias.

Mrs. Linebaugh is a graduate of New York State College for Teachers at Albany and attended French School of Middlebury College in Vermont. She has been a member of the faculty of the Hunter-Tannersville Central School.

Lucy Rose Greco, Michael Torelli Wed in Port Ewen

The marriage of Miss Lucy Rose Greco, daughter of Mr. and Mrs. Grazio Greco of Port Ewen, to Michael Torelli, son of Mr. and Mrs. Frank Torelli of The Bronx, was performed Sunday at 2 p. m. in the Church of the Presentation, Port Ewen. The Rev. Joseph Comyns officiated at the double ring ceremony. The church was decorated with summer flowers and candles.

Escorted by her father, the bride wore a white satin gown, fingertip veil with crown of seed pearls and carried a bouquet of roses and baby's breath. Her sister, Miss Sarah Greco, as maid of honor, wore a yellow chiffon gown with matching headpiece of flowers and veiling. She carried yellow roses.

Frank Mangello of Glasco was best man. Ushers were Tony and James Greco, brothers of the bride.

A reception for 200 guests was held at St. Leo's Hall. Afterward Mr. and Mrs. Torelli left for a wedding trip to Niagara Falls. For traveling the bride chose a brown gabardine suit with white accessories and corsage of talisman roses. They will make their home in Port Ewen.

Mr. Torelli is employed by the Pilgrim Furniture Co. He served three years in the army, 17 months of which were spent in Europe.

The marriage of Miss Ruth Mackey, daughter of Mr. and Mrs. Laurence Mackey, Church street, Highland, to Calvin Halstead, son of Mr. and Mrs. William Halstead, Sr., Commercial avenue, Highland, was performed June 30 at 10 a. m. in the parsonage of the Highland Methodist Church. The Rev. Herbert C. Greenland, pastor, officiated.

The bride wore a blue silk crepe dress with white hair, hat trimmed with flowers, white accessories and pink rose bud corsage. Miss Louise Decker, New York city, as maid of honor, wore an Alice blue silk crepe dress with white half hat, white accessories and corsage of red roses.

Robert Halstead, cousin of the bridegroom, was best man. Mr. and Mrs. Halstead left for a wedding trip through the northern part of the state. Mrs. Halstead wore a blue cobana print dress, white accessories and a grey topper. They will make their home with the bride's parents for the present.

Mrs. Halstead was graduated from Highland High School in 1945. Mr. Halstead, an alumnus of Highland schools, served four years in the navy and was stationed 2½ years in Europe.

Benedictine Auxiliary Has Luncheon and Bridge Party

The Ladies' Auxiliary of The Benedictine Hospital closed its spring and summer season recently with a luncheon and bridge at Ye Nicuys Dore in Albany.

Mrs. John Hathmaker, chairman, assisted by Mrs. Clarence Bechler made arrangements for the party which was a successful affair. Mrs. Thomas Crowley and Mrs. Arthur Hazenbush being hostesses for the afternoon greeted the guests. There were 50 present for the luncheon which was followed by an afternoon of bridge with 12 tables in play.

The rooms and tables were artistically decorated with spring flowers. After the guest were seated Mrs. Allen A. Baker, president, was presented with a corsage by the auxiliary Mrs. Baker welcomed all, thanked the members for the surprise and hoped they would have an enjoyable afternoon.

Good Taste Today

By Emily Post
(Author of "Etiquette," "Children Are People," etc.)

TAKE ONE STEP—THEN STOP

Few letters sent me made more of an appeal than this one: "I am a stranger in town. May I ask a lady I'd like to have as a friend to take a drive with me some nice afternoon? She has no car and I do and my husband is away most of the time."

My hope is that this lady always has appeared friendly even though she may not have had time to come to see you. If this is the case, I think you could feel quite free to invite her. As a rule, of course, the stranger in town is wiser to endure a little loneliness and wait for older residents to make the first advances. But there is never any harm in taking a gentle step forward from which you can retreat quickly if not encouraged. Unfriendly pushing behavior is that which thrusts itself forward and refuses to retreat.

Clothes for Ushers

Dear Mrs. Post: A girl friend and I have been asked to usher at a concert. The ushers are to wear white dresses. That was all the instruction given us. We'd like to know whether we should wear long or short dresses and whether we should wear gloves. What about hats or other head covering? The concert will be given in a very large church, because there is no other place, but it is not a religious concert.

Answer: The fact that the concert is in a church requires a head covering, not necessarily a hat. These would look best if matching. The length of dresses also should be decided by you who wear them so that they will be alike and not some long and some short. Women ushers rarely wear gloves.

Paper Napkins

Dear Mrs. Post: At a reception outdoors for about 500 wedding guests, must linen napkins be provided for so many? I think it would be impossible, but I wondered how incorrect we would be in using paper ones.

Answer: Paper napkins probably would be the only practical ones—and therefore, proper.

Conservative Clothes Are Never Wrong

Dear Mrs. Post: Is it necessary that a man wear a handkerchief in his breast pocket and if so, should this match his tie? One sees sets of tie and handkerchief combinations and I wondered about these.

Answer: He should wear a handkerchief. But whether it matches or not is a personal question for him to decide.

Mrs. Post's leaflet, "The Well-Dressed Woman," gives general advice for wearing hats and gloves as well as slacks and shorts. To obtain a copy, send 5 cents in coin and a stamped self-addressed envelope to her in care of The Kingston Daily Freeman, Post Office Box 98, Station C, New York 19, N. Y. Mrs. Post is sorry she cannot answer personal mail.

Dodgers Lose, 9-3; Single Here Tonight, Thursday Afternoon

Peekskill Wins, Cuts N.A.L. Margin to Five Full Games

With a big week-end of baseball scheduled for municipal stadium with the exception of a holiday arclight game Friday night, the Kingston Dodgers rode into town today confident of increasing their league lead over Peekskill in the North Atlantic League.

The Dodgers saw their margin sliced to five full games Wednesday night by absorbing a 9 to 3 loss at the hands of the last place, Bloomingdale Troopers while Peekskill was winning a 9-6 verdict over the faltering Nyack nine.

Single Here Tonight

Manager George "Sugar" Scherger's club plays host to the same Bloomingdale club at the uptown ball orchard tonight in a single attraction slated for 8:30 o'clock. The two clubs meet again for a July 4 attraction tomorrow afternoon at 2 p. m. Then Kingston and Bloomingdale journey to the latter's park for a night tilt Friday night.

Following the holiday arclight tilt at Bloomingdale, Kingston returns to the stadium for a single-ton Saturday night against Mahanoy City and a double-header Sunday night with the first encounter starting at 6:30 o'clock. Effective this Sunday all future home games on Sunday will be played at night instead of in the afternoon. This change was announced yesterday by Business Manager Paul Taylor.

Bloomingdale raked the offerings of Bob Curtis and Joe Grasso for 15 base knocks last night in pounding out the 9-3 victory. Camp went the route for the winners and yielded eight hits. He fanned 11 and issued only three walks.

Bloomingdale hopped on Curtis for a pair of runs in the first and came back with two more in the third to take a 4-0 lead. Curtis bowed out in the fifth when Bloomingdale took an 8-0 commanding edge. Grasso came on and finished up. Curtis walked 2 and struck out four. Grasso had perfect control and whiffed three batters.

Errors Hurt Cause

Although Bloomingdale reached the combined offerings of Curtis and Grasso for 15 hits, the Kings to errors failed to help the cause. Chris Klitos, shortstop, was charged with three. Bobby Newhart committed one miscue while Wiley Williams came up with the other.

Trailing 8-0, Kingston finally dented the pay-off dish with two runs in the sixth and a singleton in the seventh; Bloomingdale pushed across its final marker in the eighth to win handily.

Despite their 9 to 3 loss last night the Dodgers are confident of returning to the victory column tonight in games against the cellar-dwelling North Atlantic League club. The team is far top physical shape now with the return of "Knobby" Rosa and Joe Grasso from the injured list.

Brown Is Released

Prior to returning to Kingston today, the Dodger management announced the release of Roger

Al Chavez, center, who boxes Jackie Peterson for the flyweight title of the world in Glasgow, Scotland, late in August, receives the well-wishes of Tommy Zano, former local welterweight contender, as Billy "Duke" West, manager and trainer of boxers, left, lends his encouragement. Chavez, doing his preliminary training at West's Woodstock Chateau Montparnasse, will be a featured guest at B'nai B'rith's card of bouts in the Kingston Municipal Auditorium on Thursday night, July 10. (Freeman Photo)

No. 3 Flyweight Trains for Title Bout in August

Woodstock, July 3—This sector will soon enter the international prize ring.

Al Chavez, third ranking flyweight in the ratings of the National Boxing Association, doing preliminary training at the Chateau Montparnasse, is matched with Jackie Peterson, for a title bout late in August at Glasgow, Scotland.

The fiery little two-fisted puncher, whose ancestors came from Spain, is sure to win the 110-pound diadem, according to Billy "Duke" West, lord and master at Montparnasse, a connoisseur of fight talent from away back. Chateau Montparnasse is at the intersection of the Zena-Woodstock-Saugerties roads.

"Al has a terrific right," said the Duke, a Woodstocker for 18 years on time off from his travels around the world. "I look for him to knock out Peterson, bring the title back to America, and thus popularize his class among fight patrons of the U. S."

West said he built his hopes on Chavez's record of 38 victories in 40 times out, with 10 knockouts.

The smiling little Los Angeles, Calif., native interjected, "Since I've been taught to punch properly, I've found it easier to win by knockouts. I hope I can beat Peterson that way."

Contrary to the contention that flyweights lack punching power, West holds that there's no reason why one little man cannot knock out another, the same as fighters in the heavier classes. A punch is a punch to Billy.

The 24-year-old Chavez has done most of his battling on the west coast and in the Hawaiian Islands. He is enjoying his first trip east as the guest of the Duke. Al likes Woodstock. "It is wonderful country, swell to train in, with good spots for roadwork," he advised.

The Duke and his future champ are at Bill Dixon's Irvington. "Broadway Bill has been with a lot of the champions and knows what a fighter should have on the table," the Duke said. "And, I like it there too because a fellow can eat leisurely. Then there are those French salads his chef prepares! They remind me of my days in Gay Paree."

Billy West has fond memories of the famous city where he as an associate of Lew Burston and the late Jeff Dickson helped to stage some of the outstanding ring attractions at the Palais des Sports.

How Come the "Duke?"

How did Billy get that moniker? "Well, he became so attached to Montparnasse with its artistic background that Frenchmen just naturally referred to their friend as one of royal bearing."

"I thought so much of that place that I named my local home Chateau Montparnasse in its honor," he said, "and I modeled the buildings on my property after those comfortable French homes."

West has made considerable progress on starting a village of his own, but the World War I vet seems rather content to just take it easy now among his quaint cottages with coats of arms over the doors, and works of sculpture dotting the landscape.

Yesterday his main concern was a lawn mower. "I'm waitin for it to be sharpened, then Al and I will get a little exercise keeping the grass short," he laughed.

FROM LITTLE ACORNS . . . Right under the collective noses of Kingston's unsuspecting citizenry, the Kingston Power Boat Association's outdoor regatta has developed into quite a baby, despite war-time weaning.

The sixth annual renewal of the battle of the "putt-putts" will be held Sunday on the Pondout waterfront and eighty top notch drivers from all over the East will battle for cash and trophy awards.

Chances are there are thousands of Kingston sports lovers who have never seen any edition of the K.P.B.A. regatta. If only out of curiosity, let alone elvish pride and the love for sports, you should make it a point to witness Sunday's races. You could do a lot worse, said Vernon Radel, the energetic secretary and public relations man predicts the 1947 feature will be the biggest and best. Radel sounds like a good press agent, but the records back him up. The regattas have grown to a point where the Kingston feature, generally scheduled on July 6, is a "must" for virtually all of the name drivers in the East.

The Baby Is Growing . . .

Personally, we don't know a hydroplane from a runabout and M-A-B-C-F are only letters in the alphabet. Perhaps you are in the same boat—not necessarily an outboard. But we can appreciate marvelous organization and effort the K.P.B.A. officials, members and followers have expended in a senseless program to put Kingston on the outboard map. This is a growing thing and the time is not far off when the Kingston regatta will be a state and nationally recognized sports attraction.

Vernon Radel likes to tell how the idea for the Kingston regatta was born in Saggerties. Several Kingston boatmen were attending an outboard regatta at Saggerties when someone suggested it might not be a bad idea for Kingston. It was a swell thought and the late Frank Maurer pounced on it. That was back in 1938.

Frank Maurer and eight associates went to Poughkeepsie to solicit the aid of George White, one of the five famous racing White brothers of that city. In a short while, the K.P.B.A. was organized and the first regatta that year attracted a modest total of 18 entries. But it was the start.

Mr. Maurer, who, unfortunately, did not live to see his baby grow to full stature, was elected first commodore at the organizational meeting on March 2, 1939. Other charter officers were Cornelius Bruck, vice commodore; Vernon Radel, secretary; and Donald Schryver, treasurer. From then on, it was work, work, work. It paid off.

The Efforts of Mr. Feye . . .

Through the long, successful history of the Kingston Power Boat Association runs the line Italian hand of Jack Feye, the famed restaurateur-gourmet-connoisseur of fine liquors. Feye has been something of a godfather to the K.P.B.A. Much of the credit for the success of the regatta belongs to Jack. He has done perhaps more than any other individual to further interest in the event.

Every year, Feye devotes a lot of time to help raise funds. He has donated several valuable trophies in the past, and for the 1940 regatta he allowed the K.P.B.A. to display a couple of hydroplanes and the enormous Haynes-Griffith Trophy in his Wall Street business establishment. You may recall the furore it created at that time.

The Association is indebted also to George White, who has rendered invaluable assistance in the handling of all Kingston regattas. Others who assisted in officiating and today are members of the New York State Racing Commission include George White, Elliot Collison, Floyd Shaffer, and Gene Shea, all of Poughkeepsie.

George and Joe White, tied for top honors in the 1939 regatta. In 1941 the local regatta had to be postponed from July 6 until August 24, because of severe flood conditions at that time. Despite the fact that the National Sweepstakes were held on the same day at Red Bank, N. J., the popularity of the local race was evidenced by an entry list of 80 crack drivers.

Mayer Won '46 Classic . . .

Forty two drivers competed in the 1946 classic won by College Point's famous Emil Mayer.

We hope the promoters get a real break in the weather Sunday. And the local merchants can have once from the waist for their splendid support of the event. Sports fans, it looks like the rest is up to you. Let's see you out on the Pondout water front come Sunday.

Brooks Borrow Giant Power To Rap Ottmen by 11 to 3

(By The Associated Press)

Leave it to Brooklyn to do the incredible.

The Dodgers today are on top of the National League. Yet, by all the laws of nature and baseball they should be in the second division. For on paper they are no more than that.

The lineup is far from impressive. Yet this club with Burt Shotton, a fill-in for the exiled Leo Durocher at the helm, with only two 300-hitters, without the services of Pete Reiser, their best player, and with only one dependable pitcher, Ralph Branca, is leading the league by one game.

Spirit Pays Off
Perhaps it is because of their indomitable spirit, their all-out hustle and fight, their ability to capitalize on breaks, plus, of course, the existence of three fine key players in Ed Stanky, Pee Wee Reese and Dixie Walker on the squad.

Another big reason for their current hold on the top rung stems from their ability to beat the Giants, especially on their home soil.

The Brooks borrowed a page from the Giants book last night, falling on three Giants, all-out for nine runs in the fourth inning and went on to a handy 11-3 victory. Typical of the Dodgers' ability to take advantage of a slip, it was a walk and an error that started them off.

Branca Wins 11th

Ralph Branca, Brooklyn's biggest winner and all-star selection, won his 11th game with a seven-hitter and fanned 10. The win enabled the Dodgers to take a one game lead over the Boston Braves. The Hubmen dropped a 6-5 decision to the Phillies in Philadelphia last night.

Skeeter Newsome beat out a punt, ran to second on Harry Walker's sacrifice and scored when catcher Phil Masi let one of Anton Karl's pitches get away from him for a passed ball.

Scoring eight runs in a wild fifth inning, the Cincinnati Reds defeated the Pirates in Pittsburgh 8-6 as a crowd of 23,394 watched five Pittsburgh pitchers make a futile attempt to stop the Reds. Harry Gumbert, who relieved Kent Peterson in the fifth was the winner.

The New York Yankees opened up a six and a half game lead in the American League by drubbing the Washington Senators 8-1 at the Yankee Stadium. Allie Reynolds held the Nats to five hits including Stan Spence's ninth home run which robbed him of a shutout. It was his seventh victory. Joe DiMaggio walked his 10th home run for the Yanks.

Scoring a run in the ninth inning the Philadelphia Athletics defeated the Red Sox at Boston 7-6 to take over undisputed possession of fourth place. A single by Sam Chapman scored Barney McCosky with the winning run. Pete Suder homered for the A's and Ted Williams, Bobby Doerr and Birdie Tebbel ran his four homers for the Red Sox. It was number 14 for Williams.

Throttling a late rally, Hal Newhouser, Detroit's great southpaw, gained his ninth win against eight losses as he pitched the Detroit Tigers to a 1-0 win over the Indians in Cleveland. A crowd of 58,359 turned out to honor Mel Harder, 20-year veteran of the Tribe's mound corps. The win put the Tigers into a second place tie with the Red Sox.

Helped by homers by Wally Judich and Jeff Heath, Jack Kramer had an easy time in pitching the Browns to a 7-1 victory over the Chicago White Sox in St. Louis. It was his sixth win against as many setbacks. The homers were number 12 for Heath and nine for Judich.

All games were played at night with the St. Louis Cardinals and Chicago Cubs idle.

Frank's Edge Hercules on Late Rally, 4-3

Crosby's Home Run Enables Al Hunt To Gain Victory

A Frank Merriwell finish straight from the story book highlighted the City Softball League schedule Wednesday night when Frank's Sport Shop pulled a thriller right from under the nose of Hercules.

Frank's, trailing 3-0 going into the bottom half of the seventh, suddenly came to life and punched across four big runs to win the decision, 4 to 3.

At Hunt, one of the region's best softball hitters, evened the way for Frank's and he hung up his ninth league conquest. Vinnie Noble went the route for Hercules and was touched up for 10 blows. Hunt allowed but five bingles.

Other League Results

Three other contests were played throughout the city last night. Wof's eked out a 3 to 2 win over Central Lunch, Subway No. 1 belted Berardis, 9-1, and B. L. Luce blanked the U. S. L. Luce 8-0. The Subway No. 2 vs. Fullers and Village Rens vs. Jacobson games were postponed until a later date.

Frank's broke loose in the big frame when "Rocky" Maxson opened with a pinch-single for Whitey Myers. Noble settled down and retired Al Hunt who stroked a long home to center field.

Ben Freer's pop fly for the second out and Noble appeared well on his way to a shutout victory.

Buddy Hughes thought differently on the outcome, however, as he laced a long hard drive into deep right which White raced for but the ball got by him and went for a triple as Maxson rode home to make it a 3-1 ball game. Frank's kept things alive with a one-baser to score Hughes. Still ahead with a two-run cushion, Noble kept ahead on "Link" Crosby but on the third pitch, Crosby leveled off and whistled a tremendous drive into deep right center. Crosby went all the way around for a home run, putting Frank's in front of him to give Frank's Sport Shop a hard-fought 4-3 triumph. It was Crosby's third home run.

After Hercules opened with a 3-0 lead in the first two frames, Hunt found himself and kept the powdermen in check for the balance of the tilt. Studt's walk and backswing double gave Hercules a run in the first. Singles by Mannello and White and a walk gave Hercules two more in the second.

'Payment Deferred' Is Next Cragmoor Stage Attraction

"Payment Deferred," the play which brought Charles Laughton to the attention of the American public in 1931, will be Morton DeCosta's offering at The Cragmoor Theatre, Cragmoor, Tuesday evening, July 8.

The powerful murder piece by Jeffrey Dell, from the novel by C. S. Forester, will have as its star the producer himself, in one of the longest roles ever written, and which requires his presence on the stage virtually the entire evening.

Presented in three acts, with a prologue and an epilogue, and settings by Harold Barrows, the play will be directed by Ted Tiller. Helene Ambrose will be seen as the tragic wife and Marissa O'Brien as the unharnessed daughter. Stewart Long will portray the affluent nephew who is murdered for his money, and Nan McFarland the woman of easy virtue who lures the bank clerk and causes the suicide of his wife. Dayton Lummas will be seen as the physician who comes to attend the wife, and Clay Flagg the real estate agent who owns the property where the action of the play takes place.

"Payment Deferred" will be given through Sunday night, July 13, and will be followed by "The Damask Check," starting Tuesday, July 15.

Man Killed When Car Rolls Ahead After Crash

Bridgeport, Conn., July 3 (AP)—An automobile collision at a downtown intersection early today killed Chelsea P. Cook, 60, of West

Promoted

SCOTT L. MARABLE

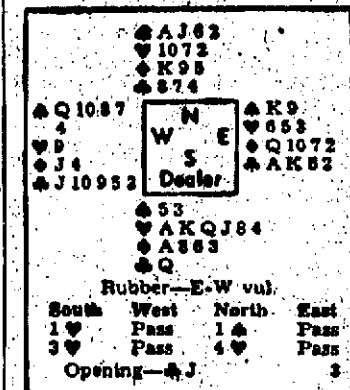

Word has been received that Cpl. Scott L. Marable of 90 Farrelly street, has been promoted to technician fourth grade. He is stationed in Italy. He is expected home soon.

Haven, who was thrown from his car which then rolled on him as it overturned.

Investigating Policemen Arthur LaLiberte and William Broadbent identified the other driver as Thomas Hinton, 40, of 79 Fifth avenue, Bay Shore, N. Y., a member of the New York city police force in Brooklyn. They quoted Hinton as saying Cook's car appeared suddenly in front of him at the intersection which was guarded by a red traffic signal. Hinton, booked on a technical charge of driving so as to cause loss of life, was released in \$1,000 bail pending an inquest.

McKENNEY ON BRIDGE

Look Again Before You Lead Trumps

By WILLIAM E. McKENNEY

America's Card Authority
Written for N.E.A. Service
This is the fourth of a series of simple plays, which, too many people miss. To get the full benefit of today's problem I am going to ask you to cover up the East and West hands.

You are sitting in the South position and your contract is four hearts. You lose the opening lead to East's king of clubs, and you ruff the ace of clubs.

If you are careless, you now take three rounds of trumps, and then try out the diamonds, discovering that they do not break. As a result, you lose two diamonds, a spade and a club. The correct procedure is to play only one round of trumps, then cash the ace and king of diamonds, and lead another diamond. The side that wins the third diamond may have another trump to lead, but you can win it and still have a trump in dummy to ruff out your losing diamond.

If you take even two rounds of trumps, the player who wins the third round of diamonds may have the one remaining adverse trump and lead it. Then you cannot ruff the losing diamond in dummy. While it is generally true that it pays to pick up the opponents' trumps, here is a case where your side suit must be led first.

Conciliators Halt Talks in New York

New York, July 3 (AP)—Prospects of an early end to the shipyard tieup diminished today as government conciliators, seeking a formula to terminate the walkout, temporarily halted key negotiating talks here to confer in Washington with the head of the U. S. Conciliation Service.

Following a meeting with union and management leaders here yesterday, H. R. Colwell, regional director for the U. S. Conciliation Service, indicated he saw little chance of a settlement before next week.

The workers seek a 13-cent hourly wage increase and other benefits. Skilled workers now get \$1.38 an hour and laborers 94 cents.

Warsaw, (AP)—Poland plans to send Yugoslavia large exports of coal, coke, textile machinery and heavy metals products under the five-year commercial agreement signed here recently. In return, Poland is to get zinc ore, lead, chromium, tobacco and hemp from Yugoslavia. The pact envisages turnovers on both sides in the five-year period of products valued at \$107,500,000 for each country.

Flynn Is in Trouble Over Back Alimony

Los Angeles, July 3 (AP)—Errol Flynn was in legal trouble today with his former wife, Lili Damita—this time over back alimony she claims he owes her.

The erstwhile actress, who divorced the actor in 1942, alleged in a Superior Court petition that he had made no payments to her for three months.

She also charged that he had refused to pay \$12,081 income taxes on her 1946 alimony, although she said he agreed to do so.

Under a property settlement in the William G. Schryver Lumber Company advertisement which appeared on the back page of July 1st issue published.

filed at the time of the divorce, Flynn was to pay her \$1,500 a month while his gross income remained over \$180,000 a year, or 10 per cent, but not less than \$750 monthly, if the income dropped below that figure.

Judge Stanley Mosk ordered Flynn, since remarried and the father of two children, to appear July 29 to determine why he should not be "judged guilty of contempt of court and punished accordingly for wilfully disobeying" court orders.

threw hot water from a window of his second-story flat last night on a group of children playing in the street below. Police guided the man as saying the noise made by the children annoyed him. One of the children, an 11-year-old girl, was treated at a hospital for first degree burns.

The original "mermaid" was the extraordinary ugly sea cow.
